

THE Green Ribbon PLEDGE

Conserving
Energy for a
Secure Future

The Green Ribbon Pledge is a new initiative to encourage energy efficiency and raise awareness about the need to end our dangerous dependence of fossil fuel consumption and work toward a sustainable future. Conserving energy is the single most important thing we can do to secure our future. By taking the pledge online at **www.greenribbonpledge.org** and wearing the ribbon, you can voice your commitment to energy conservation and help spread the word.
